## **DETAILED ACTION**

### ***Response to Amendment***

1. The response filed August 5, 2005 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 102***

3. Claims 1-6 (as best understood) are rejected under 35 U.S.C. 102(b) as being anticipated by Otten et al. (5,139,044).

Otten discloses a control system comprising: a flow sensor 27; a pressure sensor 33; a controller 37. and providing the feedback signal 29 (and/or perform other functions, column 4, lines 47-65, column 9, lines 52).

### ***Response to Arguments***

4. Applicant's arguments filed August 5, 2005 have been fully considered but they are not persuasive. Applicant argues that does not disclose measuring flow and pressure rates and comparing them to a calculated value to trigger a response. Applicant's argument is not convincing. First, in an apparatus claim, functional recitation merely requires the ability to so perform. To be given patentable weight, functional limitations should be presented in as means plus function in accordance with

35 U.S.C. 112, sixth paragraph. Second, Otten discloses the function in column 4, lines 47-65.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
